

Notice of Academic Standards, Accountability,
And Educational Options
2020-21 School Year

Notice of Academic Standards:

[Wisconsin’s Guiding Principles for Teaching and Learning](#) inform the design and implementation of all academic standards. All educational initiatives are guided and impacted by attitudes or principles for teaching and learning. [The Guiding Principles for Teaching and Learning](#) emerge from research and provide the touchstone for practices that affect the vision of every child a graduate prepared for college and career. When made transparent, these principles inform what happens in the classroom, the implementation and evaluation of programs, and remind us of our own beliefs and expectations for students.

The School District of Wisconsin Dells pursuant to sections 118.30 (1g)(a) and 120.12 (13)(b) of the State Statutes will use the following academic standards for the 2020-21 school year.

Clicking on [this link](#) will take you to the DPI homepage for all standards listed below.

* indicates that the standards have been updated/revised/adopted by DPI since last July.
